

Ecological Survey and Mitigation Timetable

| Survey* | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec |
|---|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|
| Extended Phase 1 Habitat Survey | | | | | | | | | | | | |
| Bat Building / Tree Assessment | | | | | | | | | | | | |
| Bat Roost Dusk Emergence / Re-entry Survey | | | | | | | | | | | | |
| Bat Activity Survey | | | | | | | | | | | | |
| Bat Hibernation Survey | | | | | | | | | | | | |
| Badger Survey | | | | | | | | | | | | |
| Badger Bait Marking Survey | | | | | | | | | | | | |
| Otter Survey | | | | | | | | | | | | |
| Water Vole Survey | | | | | | | | | | | | |
| Hazel Dormouse Survey (Nut Search) | | | | | | | | | | | | |
| Hazel Dormouse Survey (Nest Box / Tube) | | | | | | | | | | | | |
| Bird Survey (Wintering) | | | | | | | | | | | | |
| Bird Survey (Breeding) | | | | | | | | | | | | |
| Reptile Survey | | | | | | | | | | | | |
| Great Crested Newt Survey | | | | | | | | | | | | |
| GCN eDNA Survey (15 th April to 30 th June) | | | | | | | | | | | | |
| Invertebrate Survey | | | | | | | | | | | | |
| Vegetation Survey | | | | | | | | | | | | |
| Mitigation Works** | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec |
| Bats ** | | | | | | | | | | | | |
| Badger | | | | | | | | | | | | |
| Otter ** | | | | | | | | | | | | |
| Water Vole | | | | | | | | | | | | |
| Hazel Dormouse | | | | | | | | | | | | |
| Breeding Birds | | | | | | | | | | | | |
| Reptiles | | | | | | | | | | | | |
| Great Crested Newt | | | | | | | | | | | | |
| Invertebrates | | | | | | | | | | | | |
| Vegetation | | | | | | | | | | | | |

Optimal  Sub-optimal   

* Surveys are timed according to seasonal variation, the location and the species surveyed. This table is intended as a guideline only. Please contact us for further details about our services.

** Mitigation works, and other activities which have the potential to disturb protected species, are timed according to seasonal variation, the location and the species in question. Otter, in particular are active throughout the year and timings will be site-specific. The timing for works affecting bat roosts will depend on the type of bat roost present. This table is intended as a guideline only. Please contact us for further details about our services.
